# Specialised courses we offer:

## **IPAF** IPAF Mobile Elevated Work Platform

### • Course Overview

It is a government legislation that any person wishing to operate self propelled access equipment must be IPAF (International Powered Access Federation) licensed. Those who successfully complete IPAF training are awarded a PAL card (Powered Access License), the most widely held and recognised proof of training for platform operators. PAL cards are valid for 5 years and show the machine categories that the holder has been trained on.

It also features the holder's photo and signature and can be verified by calling IPAF.

### • Course Details

We offer 2 types of courses, Full Day and Half Day:

- 'Full Day Course' candidates will be trained to use both Scissor Lifts and Self-Propelled Booms.
- 'Half Day Course' candidates will be trained to use one of the following; Scissor Lifts or Self-Propelled or Trailer Mounted Access Platforms.

Trailer Mounted Access Platform training must not take place at the same time as any other training. For Health and Safety reasons the maximum number of candidates IPAF allows to be trained per double is 4 and per single is 6.

## **PASMA** PASMA Low Level Access

### • Course Overview

The Working at height Regulations 2005 require that the assembly, dismantling or alteration of Mobile Access Towers should only be undertaken by a competent person. A competent person is someone who can demonstrate that they have sufficient professional or technical training, knowledge, actual experience and authority. A PASMA Certificate (Prefabricated Access Suppliers and Manufacturers Association) widely recognised as the industry's leading body in the UK, will demonstrate just that. On successful completion of a PASMA training course all delegates receive a Certificate of Competence and ID card which are recognised by The Health and Safety Executive and valid for five years. The card shows the categories that the operator has been trained in and it features the holder's photograph and signature.

### • Course Details

The course covers the following:

- Introduction to Mobile Access Towers
- Tower Assembly
- Stability
- Safe Use of Towers
- Repositioning Towers
- Care & Maintenance
- Tower Dismantle
- Regulations and Standards

### **NEW LEGISLATION:**

When using Stairwell Access Towers you now need a current 'Towers on Stairs' photocard to meet the latest working at height regulations. You can get yours by completing the relevant 'Stairwell Access Towers' training course with us.

## Forklift Truck

### • Course Overview

The Counterbalance Forklift Truck course is aimed at teaching the correct operating practices; adhering to the standards laid down by the manufacturers association and the RTITB. Successful candidates will be able to operate all aspects of a forklift truck with the required competency.

### • Course Details

*The course covers the following:*

- Operators Safety Code
- Principals of Lifting
- Battery Care
- Stability Factors
- Principals of the Forklift Truck
- Steering Operations (forward & reverse and confined areas)
- Picking up, Setting Down, Transporting Pallets/Loads
- Stacking and De-stacking Loads at Various Heights
- Daily Maintenance Checks

## Abrasive Wheels

### • Course Overview

This training course is designed to meet the requirements for training in line with the Provision and Use of Work Equipment Regulations 1998 (PUWER 1998) for safety in the use of Abrasive Wheels. As such it is essential that all workshop personnel are trained in the adjusting, assembling and changing of Abrasive Wheels.

### • Course Details

*The course covers the following:*

- Hazards/Types of Accidents
- Types of Wheels
- Wheel Markings
- British Standard Marking System
- Storage, Handling and Transportation
- Methods of Testing; The Ring Test
- Lotters, Flanges, Locknuts, Mounting and Balancing
- Wheel Dressing

*Purpose Built Practical Training Area*

## Additional In-house Courses

- Manual handling
- Safety Harness
- Ladders and Step ladders
- Risk Assessment
- CITB - SSSTS
- Confined Spaces
- COSHH
- Plant Training
- Emergency First Aid
