Effective installation

Position barriers closer to the noise source for maximum acoustic shadow

What makes our acoustic barriers so effective?

Front outer layer

Extremely durable, waterproof, high quality PVC, with optimum mass to ensure maximum noise reduction whilst retaining a professional appearance.

Acoustic absorbent

Highest grade acoustic foam prevents noise reflecting off the barrier.

Waterproof breathable membrane

Allows noise to be absorbed but keeps water out.

Durable reinforced mesh

Extends product life to retain acoustic performance in harsh working environments.
