

## PowerMate M Series > heavy-duty powered stair climbers

For the ultimate solution in transporting extremely heavy loads on stairs, Stanley's M Series powered stair climbers get the job done. There are two models in this series – the M1 and M2B. The M2B is 18cm taller which makes it suitable for larger loads.

Designed for the heaviest of load applications, the M1 and M2B machines have a lifting capacity of up to 680kg. Their heavy-duty construction and ability to manoeuvre in tight spaces enables the safe and reliable handling of large and fragile items, such as computer servers, vending machines, fridge freezers, white goods, cabinets, catering equipment, safes and much more.

### Benefits

- > Single operator usage cuts the manpower required
- > Reduce the risk of manual handling injury
- > Improve efficiency of business operations
- > Speeds loading and delivery
- > Manoeuvrability on tight landings
- > Eliminates product and premises damage
- > Minimises physical effort
- > Removable battery with in-transit charging kit
- > Bespoke accessories for different sectors

## Specification

- 680kg maximum capacity
- Truck grade steel construction
- Maximum height deck/dock 840mm
- M1 machine weight 75kg – M2B 83kg
- M1 toe plate – 610mm x 150mm – M2B 685mm x 150mm
- M1 dimensions – 609mm x 431mm x 1524mm
- M2B dimensions – 685mm x 430mm x 1730mm
- Electronic charger 220/240V 4amp
- Solid rubber wheels
- Leak-proof gel filled battery 12V – 30 amp

- ✓ Free demonstrations
- ✓ Certificated training
- ✓ National maintenance coverage
- ✓ Preventative maintenance schedule
- ✓ Competitive finance and hire options
- ✓ 12-month parts warranty
